SHORELINE CLEANUP PLANNED AT CENTER HILL LAKE

LANCASTER, TENN, (Aug. 12, 2003) — Now is your chance to have fun while helping preserve the natural beauty of Center Hill Lake. The U.S. Army Corps of Engineers is once again sponsoring the annual Fall Shoreline Cleanup at the Lake and seeking volunteers for the effort.

This year's cleanup is scheduled for Saturday, Oct. 4, from 9 a.m. - noon, rain or shine. Sign-in and garbage pick-up sites will be located at the Floating Mill and Ragland Bottom Recreation Areas. Participants at each site will be provided gloves and garbage bags and assigned a section of shoreline to work. A free lunch for all participants, complete with door prizes, will be provided at each cleanup location. Volunteers should wear work clothes and sturdy footwear and, depending on the weather forecast, pack rain gear . . . just in case.

All participants should pre-register for the cleanup by calling the Center Hill Lake Resource Manager's Office at (931) 858-3125 or (615) 548-4521. Pre-registration will help planners prepare the proper number of lunches and select desired lakeshore cleanup areas. On the day of the cleanup, individuals and groups not pre-registered may still take part by signing in at one of the above recreation areas. Organizers predict one of the best ever such events and invite all to help keep one of Tennessee's lakes one of the most beautiful in the country.
